Address THE EVENING REPUBLICAN, 125 South Water street, Decatur, Illinois.
TUESDAY, MAY 29, 1894.
The Battle at the Mines.
New York Recorder: The conflict that has arisen between the coal miners and the operators is from every point of view deplorable. Blood has been shed, lives have been lost, property has been destroyed, the waste of capital and labor has been enormous, and the end no man may yet foretell except that the law will triumph, no matter what the cost may be.
The theory on which the striking operatives are acting is wrong and, so far as they are concerned, suicidal. They have, of course, the right to stop work if the terms on which they are willing to sell their labor are unsatisfactory. That is their right as men and human beings, whether they are or not citizens of the Republic. But that point reached, their rights end. They cannot compel their employers to pay them more than the employers are willing to give; and if they forcibly attempt to prevent other men from working—men willing to take their places at the rate of compensation they have rejected—they place themselves in the position of rebels against the government. Rebellion against constituted authority can not and will not be tolerated. It must and it will be put down.
The great majority of these striking miners seem not to have learned this primary lesson of American government. They have been misled by incendiary demagogues whose trade is agitation and whose chief aim is self-aggrandizement. But we must not in condemning the lawlessness of the miners be understood as maintaining that the operators are wholly blameless. As we have read the history of the contention in the dispatches, it seems to us that a little less vigorous insistence in the imposition of terms might have averted the calamity that has taken place. It is to be hoped the doors of compromise are not swung so close that they may not be reopened. But meanwhile the law must be enforced and the peace preserved.
WASHINGTON LETTER.
(From our Regular Correspondent.)
WASHINGTON, May 29, 1894.
Does the sticky trail of the sugar scandal lead to the White House? Statements made by Democrats, mind you, not Republicans, first indicated that it did, and the action of the investigating committee, in pretending to be greatly exercised because three newspaper correspondents—one of them a Democrat, and Senator Murphy's private secretary—have declined to give the names of those who gave them information, has not weakened the indications. The committee may be perfectly honest in its attempt to make the correspondents tell the names of their informants, but experience should warn them of the time they are wasting. There is probably not a newspaper correspondent in Washington who would not go to jail and stay there rather than to tell the name of any man who had given him information in confidence, and nobody knows this any better than the senators on this committee; hence the belief that they are merely using the correspondents in making a play for time, instead of asking the men whose names have been directly connected with the scandal for the information that will establish the truth or falsity of the charge that the sugar trust dictated the sugar schedule of the tariff bill. The present actions of the committee confirm the impression of those who predicted from the first that the whole investigation would be as great a fizzle as that part of it which dealt with the alleged attempt to bribe senators.
Several votes in the senate having demonstrated that the last bargain took in all of the Democrats except Hill, as well as populists, and that the tariff bill as bargained for is going to get their votes, it is probable although not yet certain that the Republicans will in a few days agree to the setting of a day for the final vote on the bill. The sugar schedule will be reached this week and an effort will be made to upset it, but for the reasons set forth above it will hardly succeed.
Gold, like everything else, is afraid of this administration. At least, it gets away from it quite fast. Notwithstanding the \$50,000,000 in gold received from the late bond issue, the gold in the treasury is to-day below \$90,000,000, and according to the opinion of many of the shrewdest observers in congress, including friends as well as enemies of the administration, another bond issue is only a question of time, and if there is not a decided "let up" in the drain on the treasury, it will be a very short time. All of the prophecies of Mr. Cleveland and Secretary Carlisle concerning the return of gold from Europe have proven false. Should the tariff bill become a law by the first of July, which the Democrats claim, but the Republicans do not concede, there will be an immediate and immense drain on the remaining gold in the treasury, as the importers will want it to send to Europe to pay for the goods which European manufacturers have been piling up to flood the American market with as soon as the Democratic tariff goes into effect. Secretary Carlisle is doing absolutely nothing to protect the gold in the treasury, although his experience in placing the last bonds ought to have warned him of the difficulty he may have in floating another issue of bonds at the same rate. A Democratic senator was heard to express the opinion that the administration could not place another issue of bonds for less than four per cent, and that he would not be surprised if they had to make it five per cent. It was never more apparent than now that Secretary Carlisle is not a financier.
If there were no such thing as treaty obligations the bill fathered by Representative Bryan, of Nebraska, providing for the issuing of \$70,000,000 of greenbacks, to be used by the government in purchasing a controlling interest in the Nicaragua canal and in building the same, now before the house commerce committee, might be more seriously considered than it is.
Warm Weather Coming.
In a few days warm weather will be here and the members of the family who have to be in the house nearly all day will feel it the most. To make their burdens lighter get a "Jewel" gas or gasoline stove.

Four Big Successes.
Having the needed merit to more than make good all the advertising claimed for them, the following four remedies have reached a phenomenal sale. Dr. King's New Discovery, for Consumption, Cough and Colds, each bottle guaranteed—Electric Bitters, the great remedy for Liver Stomach and Kidneys—Bucklen's Arnica Salve, the best in the world, and Dr. King's New Life Pills, which are a perfect pill. All these remedies are guaranteed to do just what is claimed for them, and the dealer whose name is attached herewith will be glad to tell you more of them. Sold at King & Hubbard's drug store.
COQUELIN will star in Bavaria. For this he has been accused of a lack of patriotism. The French are only slowly grasping the fact that art and box-office receipts have no country.
Bucklen's Arnica Salve.
The Best Salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For Sale By KING & HUBBARD.

CITY AFFAIRS.

**Regular Meeting of the Council—
Hardy and Ruthrauff Are
Lucky—Resolutions.**
Mayor Moffitt and all members of the
city council were present last night at
the regular meeting and some business
of importance engaged attention.
The plat of Dr. Stoney's subdivision
of West Decatur street was read and re-
ferred.
CHANGES.
The following report signed by Mayor
Moffitt, chairman, and L. F. Skelley,
secretary, was submitted to the council:
"At a committee meeting held May 24,
1893, at which all members of the coun-
cil were present except Johnson, the fol-
lowing matters were considered: Alder-
man Dodd moved that the council hold
four meetings a month for the balance of
the year. Alderman Montgomery moved
that the city printing be let by contract.
The mayor appointed the following com-
mittee as saloon license district: Strat-
ton, Knight, Sutton, Montgomery, Fos-
ter, Stewart and Bischof."
The action of the committee was ap-
proved by the council.
It was voted that A. F. Gephart be
given the contracts for laying plank
walks at five cents per square foot.
There was a favorable report on Ald.
Drake's resolution for a drop light at
the corner of Eldorado and Church
streets, but the proposition was referred
back to the committee.
The Mason street brick paving was
accepted on the report of Engineer Bur-
ges.
The paving on Water street from
Herkimer to the P. D. & E. road was
accepted, and the paving of East Wood
from Webster to Parke street was re-
ferred.
Peter Halmbacher was granted a
license to sell liquors in his building on
East Main street. The license of Peter
Sells was transferred to Michael Dugan,
jr. The application of Julius Blackburn
for license to sell liquor at 141 West
Union street was refused because there
was a big remonstrance against it. Ald.
Dodd offered the motion that the appli-
cation be denied and it was adopted by
a vive voce vote.
The mayor's veto of the L. L. Burrows
charity store bill was sustained by a
party vote, the Democrats voting aye
and the Republicans nay.
RESOLUTIONS.
By Johnson: That a 15-inch sewer be
laid on the North side of North street,
from Jasper to Witt street. Referred.
By Bischof and Johnson: That the
street superintendent be notified to fill
in the approaches for the opening of
East Marietta street across the Illinois
Central. Referred.
By Foster: That a brick sidewalk five
feet in width be built on the west side
of Boyd street, from the south end of
present sidewalk south of West Decatur
street 460 feet. Referred.
By Johnson and Bischof: That a five
foot brick walk be laid on the east side
of Jasper street from the alley north of
Eldorado street to the L. & W. Re-
ferred.
By Foster: That an 18 inch tile be
laid from the north end of an 18-inch
sewer pipe now laid across Macon street
in a northeast direction across Haworth
avenue about 150 feet. Referred.
The question of having a flagman
placed at the Morgan street crossing by
the P. D. & E. railroad company was
brought up by a letter from Supt. Star-
buck, of the P. D. & E., who suggested
that the engine crew would look after
the crossing. The council did not ac-
cept the economical suggestion, but will
stick to the demand for a flagman.

CAPTURING COAL CARS.

**Miners Refuse to Let the Coal
Cars at Lyford Be Moved.**
Terre Haute Express: A second at-
tempt was made yesterday by the Chi-
cago & Eastern Illinois Railroad Co. to
move the loaded coal cars at Lyford,
which were taken from Detectives
Dwyer and Flaid Saturday. A crew
was sent to Lyford from Danville, Ill.,
but after spending two hours in trying
to get the coal away from the miners,
the crew was compelled to return with-
out the coal. The miners climbed on
the cars and set the brakes, holding the
cars firmly on the track. At Shelbyton,
on the E. & T. H., all trains were stopped
and examined. No coal being found the
trains were allowed to proceed. All
freights between here and Indianapolis
on the Big Four were also examined by
the miners. Several box cars loaded
with coal were captured and sidetracked.
The miners' wives still guard the Big
Four coal shuttles at Fontanet and pre-
vent the engines from being couled.

An Assured Success.

The Social Rank, C. K. of A., feel very
much encouraged over the fact that
everything points to a grand success of
their first dramatic performance, "Ingo-
mar," which will be presented at the
opera house next Friday evening. Al-
ready large number of tickets have been
sold. The Social Rank assure the public
that they will not be disappointed, as
they guarantee the best amateur per-
formances ever given in the city. The
play will be elegantly costumed by a
Chicago firm. No expense is being
spared to give satisfaction. The Opera
House orchestra will be in attendance.
Of Professor Haywood's ability as an
actor the following clipping from the
New York Herald speaks: "Union
Square theater—Last night's perfor-
mance served to give the metropolis an-
other promising young leading man in
the person of Louis Haywood. Nature
has been generous to him in fitting him
for the stage, he having a fine appear-
ance and excellent voice and a mental
grasp to which in seizing the intricac-
ies of the human mind."

Salvini Thursday Night.

The noted actor, Salvini, appeals as an
excellent tonic to the play-goer who is
unnaturally bored at the monotonous
tameness or crude, coarse commonplace
realism so much a part of the drama
now-a-days. It is fortunate we are to
have Salvini here that the local manage-
ment have been so fortunate as to secure
this very strong organization. The en-
gagement which is for one night occurs
at the Grand Opera House, Monday,
May 31. "The Three Guardsmen" will
be presented in a most lavish manner,
enabling the theatre-goers to witness the
identical production as seen in New York
during Mr. Salvini's recent engagement.
A very large supporting company sur-
rounds Mr. Salvini. The principal of
which have achieved fame by their many
years of service and thorough dramatic
training.

When You Arrange Pictures on
the Wall, Do Not Hang
Them in a Line.
From the American Journal of
Photography: The one thing which is
unforgivable in hanging pictures is to
"string" them along the walls in a line.
Their loveliness is pitiable. Next to that
crime is the one of arranging exactly
symmetrical groups, suggestive of noth-
ing so much as a lesson in geometry.
Group pictures, group them gracefully,
but don't, when one has succeeded in
making a graceful bunch on one side of
the fireplace, reproduce it exactly on the
other side.
According to one who speaks with the
emphasis of authority, delicately framed
water colors are the only proper things
for the drawing-room, magnificent oils
for the library and hall, and etchings
and engravings for the dining-room.
Meantime those who do as they please
will continue to hang their etchings,
water colors and oils exactly where they
will gain most pleasure from them, tak-
ing care only not to place side by side
ridiculously inharmonious things.
The smaller the picture or the more
full of detail, the nearer the level of the
eye it should be hung. Sometimes two
parallel wires are brought straight up to
separate hooks on the picture moulding,
but generally the old-fashioned angle of
wire is made. Gold and silver wires are
generally used, but it is said that small
steel and iron chains are to be used this
winter for hanging dark framed engrav-
ings and etchings. Some of the daintier
pictures, instead of being hung from the
moulding, have wires stretched tight
across the back and are caught invisibly
on small screws.

Live Stock Items.

Last week's receipts of stock at Chi-
cago were 131,000 hogs, 54,000 cattle and
52,200 sheep.
Receipts of last week compared with
those of the week before show a decrease
of 5000 cattle, 1500 hogs and 1000 sheep,
while as compared with a year ago there
was a gain of 5000 cattle, 17,000 hogs,
and a decrease of 14,000 sheep.
The hog crop in Illinois is reported by
the board of agriculture to be 9 per cent
short of the very small available crop a
year ago. If this report is correct, and
it certainly agrees with much private in-
formation on the subject, it furnishes
very little satisfaction to those who
think hogs ought to sell much lower.

General Order, No. 1.

HEADQUARTERS DUNHAM POST, G. A. R.,

DEPARTMENT OF ILLINOIS, DECATUR, ILL., May 28, 1894.

In accordance with the beautiful and time-honored custom, and in response to orders from national and department headquarters, Dunham Post 141, is ordered to convene at post headquarters, Wednesday, May 30th, at 12:30 o'clock, to take part in a proper observance of Memorial Day, and all civic and military organizations are requested to join with us.

Memorial Day.

The arrangements for the observance of Memorial Day are about completed. Following the precedent established last year the exercises will be held at the opera house to be followed by a parade and the custom of decorating the graves of the dead soldiers. The address will be delivered by Rev. W. C. Miller, of the Congregational church. Major Hays, the marshal of the day, announces the formation of the column, the line of march, etc., as follows:

- Platoon of Police.
- Company's Band.
- Decatur Guards, Co. H, Fifth Infantry.
- Grand Army of the Republic.
- Sons of Veterans.
- Woman's Relief Corps and Ladies' Aid Society.
- Union Bank, K. of P., No. 36.
- Eastern Camp, A. W. of A., No. 1,625.
- Patrons of Husbandry, O. G. F., No. 319.
- Woman's Christian Temperance Union.
- Catholic Knights of America, No. 494.
- Ancient Order of Hibernians District 1.
- Decatur City Council.
- Decatur Juvenile Temple No. 180.
- Mayor and city council.
- Speakers and others in carriages.
- Fire Department.
- Citizens on foot.

Other organizations wishing to take part and not having yet accepted will be given a place in the line.

The exercises in the opera house will commence promptly at 1:30 and will end at 4 o'clock p. m., when the line will be formed on Water street with right resting on South Park street.

The line of march will be north on Church, south on Church to Prairie, east on Prairie to North Main and south on North Main to the cemetery.

P. C. Norman Pringle is appointed assistant marshal.

The Great Festival

Begins to-morrow night. It will be a magnificent opening for the new Tabernacle. Prof. Lutz has everything in readiness. There will be a change of program at each of the three performances. The course tickets at 75 cents and \$1 have been the most popular, which assures a great attendance at all three performances.

DIED.

At the home of his mother, Mrs. Kate Towling, May 28, of hemorrhage of the brain, Wilbert L. Towling, aged 25 years.

The deceased was a son of the late William Towling. His brothers and sisters are Harvey Towling of Denver, Col., Walter, Lou, Guy and Pearl Towling. Mrs. J. W. Lord of Decatur, Mrs. Clara Marshall of Kansas City, and Mrs. Oscar Keenan of St. Louis.

SPECIAL meeting of Decatur Juvenile Temple No. 180 to-morrow afternoon at two o'clock sharp. All members are requested to be present, for the transaction of business and to march with the procession at 4 p. m.

This Sharon M. E. church will give a strawberry and ice cream festival Tuesday, June 5th, for the benefit of the church, in L. L. Houck's new barn, one and a half miles west of the church. The public is cordially invited to attend.

Here, the eight-year-old and only daughter of S. K. and Mrs. A. Carter, of Clinton, died yesterday. Mr. and Mrs. E. M. Carter left for Clinton today to attend the funeral. E. M. is a brother of S. K. Carter.

EASTERLY CAMP—All modern Woodmen are requested to meet at 8 o'clock to-morrow afternoon at 3 o'clock to march in the Decoration Day parade.

COAL STRIKE NEWS.

Decatur Miners Still Idle Waiting for Scale of Wages to be Fixed.

Return of the Decatur Guards from Pana.—No Agreement Yet at Springfield.

And still all is quiet in the coal mining section in Decatur. There are no coal diggers at work. They continue to hold off expecting the scale of wages to be fixed at the state meeting at Springfield. The bosses could not agree Monday, and so another meeting has been arranged to be held next Thursday, as will be seen by consulting the telegraph news on another page. There is trouble at Wenona, Minonk and other points, but there is no cause just now to expect blood shed at any point.

HOME FROM PANA.

The Decatur Guards, accompanied by the Jacksonville company, arrived in the city last night at 9 o'clock and marched to Guards' Armory. The Jacksonville boys remained there until this morning, when they left for home. The troops were withdrawn from Pana last evening at the request of the city and county officials. The presence of the military there was resented by the miners themselves, and many of the foreigners who had been at work quit at once. There were but 250 men on duty Monday, and to-day after the military had been withdrawn, only 200 went into the pits. They were mostly Americans.

The trip was in the nature of a picnic for the militia. The soldiers were not in danger at any time. There was no disturbance of any character, and as the expected rush from Indiana did not materialize there was no occasion for a show of military authority. Notwithstanding the fact that the militia has been withdrawn the companies can be quickly got together for a speedy trip to any point in case it is necessary to call them out.

AT STAUNTON.

STAUNTON, Ill., May 28.—The striking miners employed by the Madison Coal Co., on learning that slack was being shipped to St. Louis on its own railroad, which connects with the Clover Leaf Road, tore up the tracks last night, broke switches, pushed empty cars down the grade, and tore up the company's system of piping used to fill the water tanks from a spring. Now the strikers intend to prevent the company mining chute coal for the Wabash railroad trains. H. Prange & Sons' flouring mill at New Douglass has been forced to close on account of the coal famine.

LIFTING COAL AT PANA.

(Special to the Republican)

PANA, May 28.—All is quiet here to-day. Nobody making any noise except the foreign element. About 500 American miners went into the mines to-day. The Pana authorities do not look for trouble, but if it comes they claim to be able to maintain the majesty of the law.

Postoffice Notice.

The postoffice will close at 10 o'clock a. m. on Memorial day (Wednesday, May 30th).

Register and money order business will not be transacted during the day. The carriers will make one delivery in the morning.

All mails will go out as usual.

J. T. HUBBARD, Postmaster.

Special Music.

Manager Haines has secured the entire Opera orchestra at Springfield to play at the Grand Thursday night for the Salvini engagement. The local music is otherwise engaged for that evening.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing her work. The proprietors have so much faith in its curative powers that they offer one hundred dollars to any case that it fails to cure. Send for list of testimonials. Address F. J. Cheney & Co., Toledo, O. The Piatt County Dead Lock.

The Republicans of Piatt county held their convention yesterday, and nominated the following county ticket: Judge, Frank M. Shonkwiler; clerk, Andrew L. Rogers; sheriff, C. A. Shively; treasurer, E. L. Walker; superintendent of schools, J. H. Martin.

The delegates to the state convention are for Cullom for senator, and the delegates to the senatorial convention are instructed for William C. Hubbard for representative.

There was a dead-lock on the vote for instructions for congress between Hon. B. F. Funk, of McLean county, and Judge F. M. Wright, of Champaign county, the vote standing 43 for Funk and 43 for Wright. After 147 ballots without change a motion to instruct the delegates to the congressional convention to vote for V. Warren, of DeWitt county, was carried.

The Advance Sale of Tickets

For the May Festival has been enormous. Lutz said this morning that he feared there would not be seats enough in the big tabernacle to accommodate the crowds. Too many people wait till the last moment to secure tickets. Everybody desiring a reserved seat should call at Otto E. Curtis & Bro.'s this evening or to-morrow forenoon. Prices range from 35c to \$1.

Card of Thanks.

The husband and parents of the late Mrs. Mattie Bevin desire to extend their heartfelt thanks to the many kind friends and neighbors who so kindly assisted them during the late illness and death of their loved one, and especially to the Young People's Society of Christian Endeavor. THE "SUGAR" IN IT.

The Senate Committee Resumes Its Investigation

OF THE ALLEGED IRREGULARITIES

Charged Against Senators in Connection with the Sugar Schedule of the Tariff Bill—Wouldn't Give Their Authority—Important Testimony.

WASHINGTON, May 29.—The senate sugar investigation committee met again yesterday morning at 10:30, and immediately took up the consideration of the cases of the witnesses who have refused to disclose the source of the information upon which they based the articles which have appeared in their papers concerning the alleged acts of senators and of the sugar trust in connection with the construction of the sugar schedule.

Mr. Harris Walker, the Washington correspondent of the Daily America of New York, was the first witness called. He was excused on Friday by the committee until yesterday to give him an opportunity to consult with counsel concerning his refusal to answer questions put him by the committee.

Yesterday morning Mr. Walker was accompanied by ex-Speaker Sulzer, of New York, and when the committee asked him to divulge the name of the person who had given him certain alleged information concerning the sugar trust, Mr. Sulzer, as Mr. Walker's attorney, objected. He gave his reasons briefly, which were submitted to the committee. In substance he declared that the committee is without jurisdiction in the matter; that the questions asked called for hearsay testimony, which is not reliable or competent; that the questions are incompetent and irrelevant to all the matters referred to the committee; that the sugar trust is on trial, not the newspapers or their correspondents; that the information sought by the questions propounded to Mr. Walker might be made the basis of a criminal prosecution and his answers would tend to his degradation in the estimation of all honorable men, the same being violations of confidences reposed in him on his word of honor as a man. That there is nothing in the resolution referring to the Daily American and Mercury, a newspaper published in the city of New York, or to Mr. Walker, its Washington correspondent, and the proposed further examination of Mr. Walker is beyond the legitimate scope of authority vested in the committee, and that the questions asked by the committee relate to his private business and personal employment, and seek to elicit the privileges of confidential communication made to him in a professional capacity on his word of honor as a newspaper correspondent not to reveal; that the sessions of the committee should be open. There is in the resolution no authority to hold secret sessions, and that the people of the country look with suspicion on a star chamber proceeding. There is no analogy, he said, between the investigation of this committee and that of a grand jury. The day of secret inquisition is past. It has no place in America. It is a relic of the dark ages. It should never be restored by congress except in time of war or other emergency.

Mr. Sulzer elaborated these points in argument, and paid particular attention to the last contention. He made an able plea for open sessions, and predicted that the present secret proceedings would be resented by the people. Two of the witnesses summoned to appear before the committee were not called. They are E. J. Edwards, New York correspondent of the Philadelphia Press, and J. S. Shriver, Washington correspondent of the New York Mail and Express.

The committee is nearing agreement as to what it will do with reference to the recalcitrant witnesses before proceeding further, and it is likely that the fact of the refusal of these witnesses to answer questions will be reported to the senate with a request for instructions as to the future course of the committee.

The committee adjourned shortly after 1 o'clock.

The report of the sugar investigating committee that will be sent to the senate to-day will disclose a procedure on the part of the committee that is entirely unlooked for and some testimony that appears to have an important bearing upon the confidences between senators and members of the sugar trust.

The committee will report, it is said, that they have directed the United States district attorney to proceed against the witnesses, Shriver, Edwards and Walker, before the grand jury, and have then indicted for the commission of a crime—the committee holding that under an almost forgotten act of 1857 their refusal to testify before the senate committee is an offense so punishable.

The committee will also submit the testimony of Senator Caffery, which is said to admit that a number of conferences were held between senators and representatives of the sugar trust. It is said that in his testimony Mr. Caffery admitted that he had been present at two conferences, and in reply to questions, said that one of them was held at the residence of Senator Brice. It is understood that at this conference Mr. Caffery said there were present, besides himself, Senators Brice, Gorman and Hill and Mr. Havensmyer, the president of the Sugar Trust, and other gentlemen interested in sugar, whose names the reporters could not ascertain.

Mr. Caffery also told the committee that at this conference the sugar people made an argument in favor of the change from the present tariff of duty, which had at that time been fixed upon, to the ad valorem rate, which

THE LABOR TROUBLE

The Anarchist Leaders of the La Salle Strikers

ADVOCATING THE USE OF DYNAMITE.

Warrants Sworn Out for Sixty of the Leading Rioters, Ten of Whom Were Arrested Yesterday—A Missing Deputy Sheriff.

LA SALLE, Ill., May 28.—The striking fraternity of this vicinity are very much excited to-night over the numerous arrests made by the sheriff's deputies, and many threats of trouble have been made. The agitators among the strikers are making an effort to arouse the anarchistic element to riot or to destroy the militia by bombs, on the grounds that the prisoners being taken are persecuted and abused; that they are compelled to slave for the militia and are being abused by them.

The leading rioters, to the number of sixty have warrants sworn out for their arrest and in the hands of the deputies. This afternoon and evening ten of that number have been captured and placed in the military guardhouse. This batch will be locked up in the county jail in Ottawa to-morrow, as will the arrests of each day until all are behind the bars.

They are principally Russian Poles and, notorious characters. Batrowski, the suspected deputy, who was so badly beaten by the rioters Friday last, is missing, and the authorities believe he has been foully dealt with or spirited away to prevent prosecution. His body has been searched for in the Illinois river.

Sheriff Lantz, of Marshall county, visited Camp Matthiessen to-night for the purpose of requesting Sheriff Taylor to permit to allow Sheriff Taylor to send some troops from La Salle to quell the rioters who have been wrecking trains. He has acceded to the demand and will wire Gov. Altgeld to-night. The Illinois Central road will furnish a special train, and the troops will undoubtedly move in the morning.

Forced to Quit Work by Outside Pressure. WALSHBURG, Col., May 28.—The miners at Pictou, north of town, went out this morning. They did this through the pressure brought upon them by the 600 visiting coal miners from Fremont county, as they pressed there last Friday. The Fremont miners are encamped near Rouse, where they were joined at noon by the delegations from Trinidad.

There are now about 1,400 miners assembled to force out the 300 miners in the Rouse mine. They have a band, many wagons with camp equipments and there are a large number of women in the crowd. In the movement many Italians have joined with the union men, though they are not members of the union. This is said to be the first time in the history of labor strikes that Italian have joined with union men.

At noon a group of twenty Italians from Trinidad tried to capture the freight going up to Rouse from Rouse Junction. The engineer and fireman put them off with shovel and tongs. The Italians fired several shots but were finally beaten off. Deputies soon after captured them and brought them here, lodging them in jail. The situation is critical and serious trouble is feared. There are 300 deputies guarding the mine at Rouse. A mass meeting of the miners is to be held this evening.

Preparing for an Attack. PARKERSBURG, W. Va., May 28.—Orders have been received here by hardware merchants to send all the available arms and ammunition to Spillman, where the Camden company is operating their mines. The company anticipates an attack from rioting Ohio miners to-night or to-morrow.

Will Endeavor to Arbitrate. CRIPPLE CREEK, Col., May 29.—The operators' and miners' committees will meet to-day at Cripple Creek in an endeavor to arbitrate.

DETERMINED TO RESUME. No Concessions, No Arbitration and a Deputy for Each Miner. PHILADELPHIA, May 29.—No concessions, no arbitration, a deputy for every miner, and a determination to resume mining was the result of the meeting here, yesterday afternoon, of the coal operators of the bituminous region of Clearfield and Broad Top. About three-fourths of the region were present.

DAMAGING FROSTS. Berries and Vegetables Ruined in the Vicinity of Grand Rapids, Mich. GRAND RAPIDS, Mich., May 29.—The temperature dropped very low in this valley Sunday night, and for a radius of twenty miles the berry crop, vegetables, etc., were badly frozen. The potato plants were frozen black; tomato plants, early corn, celery, asparagus, cabbages—everything in fact on the extensive garden truck farms hereabout, was cut to the ground.

The gardeners on the market say they will be obliged to replant almost everything they had that was above ground. Grapes were just in blossom and are ruined. Apples, peaches, plums and cherries are not hurt much. Ice formed an eighth of an inch thick in many places.

Jackman, Loomis, Big Rapids, Holland, Dowagiac, Paw Paw, Niles and Lawton report similar damage from heavy frosts.

Washington, May 29.—Col. W. C. P. Brockbridge, of Kentucky, by his attorneys, Maj. Shelby and Hon. Benj. Butterworth, yesterday afternoon at 3 o'clock, before Judge Bradley in the district circuit court, presented his bill of exceptions to the recent decision against him in the Pollard-Brockbridge breach-of-promise suit. Judge Bradley's approval of the bill will carry the case to the district court of appeals, but it will not come up in that tribunal before Sept. 1st.

Redemption of the Treasury Gold Reserve. WASHINGTON, May 29.—The engagement of a further \$1,000,000 in gold for redemption to-day, within the treasury, was to slightly less than \$1,000,000.

TELEGRAPHIC NOTES.

Secretary Carlisle has removed George H. Moore, inspector of boilers and steam vessels at Chicago.

Elder T. Smith, one of the apostolic quorum of the reorganized branch of the Mormon church, died at his home in Independence, Mo., Sunday.

Four workmen were killed and six injured yesterday morning by the collapse of a house in Kostrasse, Prussia, which was in process of erection.

The trial in New York of Erasmus Wiman, on a charge of grand larceny, preferred by H. G. Dun & Co., was adjourned yesterday morning for two weeks.

A bulletin issued by his physicians yesterday morning announced that Mr. Gladstone is rapidly recovering from the effects of the operation upon his eye.

The committee of the house that is investigating the armor plate scandal has decided to visit Homestead, Pa., and continue their inquiries at that point.

The cruiser Cincinnati, the first steel war ship built in the Brooklyn navy yard, has been ordered into commission June 14. Great things are expected of her.

A cry of fire raised in the St. Aloysius Catholic church at Louisville, Ky., Sunday morning, created a panic and a stampede, but fortunately no one was seriously injured.

Protestion against striking miners to be asked of the federal government under the interstate commerce act by railroads the running of whose trains is being interfered with.

Judge Crabtree, of Rockford, Ill., overruled a motion to dissolve the injunction restraining Mayor Hutchins (A. P. A.) from removing Edward Herten (Catholic) from the position of fire marshal.

The miners held a meeting at Cripple Creek, Col., yesterday morning and decided to stand for eight hours for a day's work, leaving the question of wages, as between \$2.75 and \$3, to a board of arbitration.

Miss Julia Marlowe, the actress, was married in Philadelphia yesterday noon to Robert Tabor, formerly her leading man. The marriage was a very quiet one, only seven friends of Miss Marlowe being present.

Princess Josephine, of Belgium was married to Prince Charles of Hohenzollern-Sigmaringen in Brussels, yesterday, and the religious ceremony was celebrated afterward in the private chapel of the royal palace.

Thomas Cook, aged 60, one of the most prominent missions in Indiana, and a retired merchant of Solisbury, has been missing for a week and the police in all the neighboring cities have been notified. He had a large sum of money on his person.

The Iron Mountain railroad shops at Little Rock, Ark., employing 700 men, have been closed owing to scarcity of coal. The company secures its supply of coal from its own mines in western Arkansas and in India territory, where the strike is now on.

Jennie Creek, a 10-year-old girl of Milford, Ind., has received the medal presented by the French Legion of Honor for saving a crowded World's fair express train from running upon a burning bridge, by running down the track waving her red skirt as a danger signal.

The Houtzdale (Pa.) executive board of miners has received a message from National Secretary Patrick McBryde asking the miners to request Gov. Pennell to name a place and time for a conference with the operators, and that the national officers will be represented.

At a council of ministers held in Budapest, yesterday, it was decided to demand that Emperor Francis Joseph create a sufficient number of magistrates to overcome the opposition to the civil marriage bill in the event of the measure being rejected by the house of magistrates a second time.

WRIT OF PROHIBITION DENIED.

And the Trial of Lieut. Maney by Court-Martial Will Proceed.

MINNEAPOLIS, Minn., May 29.—Judge Nelson of the United States circuit court yesterday denied the application of a writ of prohibition to stop the trial by court-martial of Lieut. Maney for the killing of Capt. Hedberg on the ground that he had been previously tried and acquitted of the charge in the federal courts. Frank P. Blair, attorney for Lieut. Maney, made a lengthy plea in behalf of the writ, basing his argument on the ground that the court-martial now assuming to try Lieut. Maney on what was practically a charge of murder had no jurisdiction so to try him, for the reason that the United States circuit court, a superior court to the court-martial, had declared the accused innocent of the very charges contained in the charges and specifications under which he was now to be tried unless the circuit court intervened with its authority in the form of a writ of prohibition asked for.

Lieut. Col. Barr, judge advocate, was very brief in his reply to the exhaustive argument of Mr. Blair. He made the direct statement that courts-martial were not a part of the judicial system of the United States, and urged that the Maney trial by court-martial was more closely allied with the executive department of the country than to its judicial department. He submitted that courts the right to issue an order to a military court to stop its proceedings ordered by the commander-in-chief.

Judge Nelson refused to restrain the court-martial from proceeding with the trial of Lieut. Maney. The court held that the charge was not murder as claimed; and that that matter appearing in a specification, not a charge, the point was one of pleading rather than of jurisdiction. The trial of Lieut. Maney will therefore proceed to-day.

EXONERATED. The Charges Against Chief Ramsey Not Sustained. DENVER, Col., May 29.—Chief Ramsey was fully exonerated of all charges against him yesterday. Fifty-one certified charges were preferred, but nothing could be found derogatory to his conduct.

Carl Smith, who was appointed by the Omaha division to collect evidence against Ramsey, apologized, and said that those who certified to these charges were not members of the order, but had been when he had first begun to collect the evidence, and they not being members were not here to back up their charges. Consequently the evidence was void.

It has turned out that three of those preferring charges were detectives, and four promised to stay with the prosecution but did not. U. E. Gillan corroborated Mr. Smith's statements.

Cheer after cheer was given when the result of the vote was known.

Miss Jack Admits the Report. NEW YORK, May 29.—Assistant District Attorney Williams and Miss Emma Jack will be married June 25 in St. Andrew's Episcopal church, Stamford, Conn., which is the home of Miss Jack. This announcement was made yesterday morning by Miss Jack herself.

THE ROAD RACE

And Parade by the Bicyclists To-morrow, Decoration Day.

Elsewhere in these columns will appear a map of the Decoration Day road race. The race is twice over the course, 12 1/4 miles in length. The start and finish is at the corner of North Church and West William streets, at D. C. Shockley's corner. The bicyclists are much pleased with the course, which is now being scraped and rolled by workmen. The road has been made as smooth as a floor and is considered very fast. The first man will start promptly at 2 o'clock and the scratch man fifteen minutes later.

THE PARADE.

This is the feature of the race day that is especially popular with the lady riders and the girls and boys. Already over fifty ladies and girls have signed their names to the parade list, besides several hundred of men and boys who will take part. Indications are that it will be one of the largest bicycle parades ever held in this city.

THE ROUTE.

will be the same as printed several days ago in the REPUBLICAN, with the start on North Church between Prairie and William streets, then move south on Church to West Wood street, thence east on Wood to Main, thence north around east side of Lincoln square on North Main street to Eldorado street, thence west on West Eldorado to North Edward street, thence south on Edward to Prairie street and then east to North Church street, one block to starting place of road race.

THE LIST OF ENTRIES.

to the road race and the handicaps have been placed in the H. Mueller Gun Company's window, where all can examine it.

THE FOREST PARK RACE.

Next Saturday, at Forest Park, there will take place one of the most prominent cycling events held in the country. It will be the occasion of the fourth annual Forest Park road race. It is a seven mile and one half mile handicap race, run over a course laid out through the park, and the handicap limit is ten minutes, the slowest riders being given starts up to ten minutes. The course over which the race will be run is as follows: Starting from Blair monument, they go west to Union avenue, south into the park, west past the old restaurant to the Hill road, where a southward turn is taken, going past the music stand, over the Lincoln bridge and up "Nigger Hill, on to the Clayton road, and thence on the Clayton road to King's Highway and turning north to the starting point. The race managed by the Forest Park Race Association.

The prize list this year amounts to nearly \$1000, and is of sufficient value to attract the cracks from all over the country. It consists of a Lyndhurst, a Syracuse, a Victor and a Halladay Temple safety, a diamond medal, a gold medal, six pairs of tires of various makes, a water-color painting, a silver watch, a gold headed umbrella, a silk umbrella, a gold pencil, a round trip ticket to the L. A. W. meet at Denver, two prizes of a dozen photographs each, and at least ten more prizes to be heard from. Three of the prizes, the Lyndhurst safety, the diamond and gold medals, will be awarded to the riders making the fastest time over the course, and the remainder of the prizes will be selected in the order they finish. Promptly at 3 o'clock next Saturday afternoon the race will be started.

The entrants from the Decatur Cycling Club are: L. E. Rogers, W. S. Ruby, James A. Faries, Frank H. Pahmeyer and Geo. Hart.

Lincoln's Address at Gettysburg.—After the battle of Gettysburg the state of Pennsylvania purchased seventeen and one-half acres of ground on the battlefield adjoining the town cemetery, to be used as a burying-ground for the loyal soldiers who fell in that engagement. This ground was dedicated to that purpose with solemn and impressive ceremonies on the 19th of November, 1863. On that occasion President Lincoln made the following address which has become famous for its patriotic sentiment:

"Four score and seven years ago our fathers brought forth upon this continent a new nation, conceived in liberty, and dedicated to the proposition that all men are created equal. Now we are engaged in a great civil war, testing whether that nation, or any nation so conceived and so dedicated, can long endure. We are met on a great battlefield of that war. We have come to dedicate a portion of that field as a final resting place for those who here gave their lives that that nation might live. It is altogether fitting and proper that we should do this. But in a larger sense we cannot dedicate, we cannot consecrate, we cannot hallow this ground. The brave men, living and dead, who struggled here, have consecrated it far above our power to add or detract. The world will little note nor long remember, what we say here, but it can never forget what they did here. It is for us, the living, rather, to be dedicated here to the unfinished work which they who fought here have thus far so nobly advanced. It is rather for us to be dedicated to the great task remaining before us, that from these honored dead we take increased devotion to that cause for which they gave the last full measure of devotion; that we here highly resolve that these dead shall not have died in vain; that this nation, under God, shall have a new birth of freedom, and that government of the people, by the people, for the people, shall not perish from the earth."

A STORY OF LOCAL INTEREST

The Life History of the Cicada.

BY F. A. GASTMAN.

Nothing in the whole range of insect life is more interesting than the development of these animals. It should always be remembered that the old adage, "All life is from the egg," applies to insects as well as to the larger and better known forms of animated nature. There is a curious seeming exception to this rule among the insects, but it does not affect the general truth. It may be safely affirmed that insects of any form never appear in unusual numbers except in accordance with the laws of their natural development.

The following facts seem to be well established:

1. There are two different forms of this insect. One appears every seventeen years and the other every thirteen years. These with us now probably belong to the latter brood and were with us before in 1881.

2. There are two sizes of insects in each brood but these differ in no way except that one is larger than the other. The smaller ones are probably an example of "arrested development."

3. It may often happen that these insects will appear in the same neighborhood oftener than 17 or 13 years. This will happen from the overlapping of broods. For instance, if there is a brood of the main body of which is to the north of us, we will get those insects that belong to the southern edge of the brood. Now there may be a brood, the main body of which is to the south of us and whose hatching period is, say, four years later than the brood to the north of us, and we may get the insects that belong to the northern edge of this brood, in which case, Decatur would have a visitation four years apart.

4. The singing is all done by the males and is produced by a pair of "kettle drums" on the under side of the abdomen.

5. Whatever damage is done by these insects will be caused by the ovipositor of the female in laying her eggs. The following account of her operations is taken from Harris' "Insects Injurious to Vegetation."

"After pairing, the females proceed to prepare a nest for the reception of their eggs. They select for this purpose branches of moderate size, which they clamp on both sides with their legs, and then bending down the piercer at an angle of about forty five degrees, they repeatedly thrust it into the bark and wood in the direction of the fibers, at the same time putting in motion the lateral saws, and in this way detach little splinters of the wood at one end, so as to form a kind of fibrous lid or cover for the perforation. The hole is now enlarged by the piercer, and is gradually enlarged by a repetition of the same operation till a longitudinal fissure is formed of sufficient extent to receive from ten to twenty eggs. The side pieces of the piercer serve as a groove to convey the eggs into the nest where they are deposited in pairs, side by side, but separated from each other by a portion of woody fibre, and they are implanted into the limb somewhat obliquely, so that one end points upwards. When two eggs have been thus placed, the insect withdraws the piercer for a moment and then inserts it again and drops another egg in line with the first, and repeats the operation till she has filled the fissure one end to the other, upon which she removes to a little distance and begins to make another nest to contain two more rows of eggs. She is about fifteen minutes preparing a single nest and filling it with eggs; but it is not unusual for her to make fifteen or twenty fissures in the same limb; and one observer counted fifty nests extending along in a line, each containing fifteen or twenty eggs in two rows, and all of them apparently the work of one insect. After one limb is thus sufficiently stocked the cicada goes to another, and passes from limb to limb and from tree to tree, till her store, which consists of four or five hundred eggs, is exhausted. At length she becomes so weak by her incessant labors to provide for a succession of her kind as to falter and fall in attempting to fly, and soon dies."

The eggs are one-twelfth of an inch long, and one-sixteenth of an inch thick, and are of a yellowish white color except the eyes and the claws of the fore legs, which are of a reddish color, and are covered with little hairs. In form it is somewhat grublike, being longer in proportion than the parent insect, and is furnished with six legs, the first pair of which are very large, and shaped almost like lobsters' claws, and armed with strong spines underneath.

On the shoulders are little processes in place of wings and under the breast is a long beak for suction. These little creatures when liberated from the shell are very lively, and their movements are nearly as quick as those of ants. After a few moments they instinctively prompt them to get to the ground but in order to reach it they do a little somersault, and then they cast off themselves promptly, but, running to the side of the tree, they deliberately loosen their hold, and fall to the earth. It seems, then, that they are not borne to the ground in the state by the limbs in which they are contained, but spontaneously, as the perilsous descent immediately they are hatched, without any aid that of the creaker worm, to be in safety through the air and the force of their fall. On reaching the ground the insects immerse themselves in the soil, burrowing with their broad and strong feet, which, like those of the mole, are admirably adapted for digging. They descend into the earth, they search the roots of plants, and are frequently found attached to the roots of the most tender and succulent plants, ingesting them with their beaks, and thus sapping the vegetable juices, which constitute their sole nourishment. They remain some thirteen or fourteen years, but they do not descend deeply into the ground. At the time of their transformation approaches they ascend towards the surface. When proper time arrives they issue from the ground in great numbers in the night, crawl up the trunks of trees, or upon any other object in their vicinity to which they can fasten themselves securely by their claws. After having rested awhile they prepare to cast off their skins, which, in the meantime, have become dry and of an amber color. By repeated exertions a longitudinal rent is made in the skin of the back, and through this the imbedded Cicada pushes its head and body, and withdraws its wings and limbs from the separate cases, and, crawling to a little distance, it leaves its empty puparium apparently entire, with festooned legs. At last the winged creature appears, small and opaque, but, being very perfectly soft and flexible, they soon adjust to their full dimensions, and in the course of a few hours the supple moisture of the body evaporates, and the insect becomes strong enough to fly.

I will be glad to receive any communications of the above statements that are based upon careful observations in the year.

PERSONAL MENTION.
